

## TECHNICAL SPECIFICATIONS

### Bulk Bag Large capacity Leakproof 97X97X215 1250 kg

Ref : BBC97X97X215-4C-1250-L-GR-GV-AF ID408

| Dimensions               |                     |
|--------------------------|---------------------|
| Length (*)               | 97 cm               |
| Width (*)                | 97 cm               |
| Height (*)               | 215 cm              |
| Volume (*)               | 2,02 m3             |
| Type of construction     | Circular production |
| Classification of use SF | 5/1                 |

(\*) +/- 5%.

| Safety Weight Load                             |         |
|--|---------|
| Maximum work load                              | 1250 kg |
| Reusable following classification : <b>5/1</b> | No      |

| Material                  |                                  |
|---------------------------|----------------------------------|
| Raw Material              | PolyPropilene laminated - coated |
| Colour of the canvas      | White                            |
| Brand and/or logo printed | None                             |

| Filling       |               |
|---------------|---------------|
| Type          | Filling Spout |
| Dimensions    | 45x60         |
| Closing links | 2             |

| Discharging   |                 |
|---------------|-----------------|
| Type          | Discharge Spout |
| Dimensions    | 45x50           |
| Closing Links | 2               |

| Lifting point   |         |
|-----------------|---------|
| Number of loops | 4       |
| Type of loops   | Crossed |
| Length (cm) (*) | 30      |
|                 |         |

(\*) +/- 5%.

## Information

All our Big Bags for the agricultural world are "Food Contact" approved. You can find our certificate directly accessible for download in the "Technical Data Sheet" tab.

We also have a "Certified Food" also called Food Grade classification.

Certified Food Bulk Bag are produced in a so-called "clean" room, with a controlled atmosphere. Bulk bags produced under these conditions are also checked 1 to 1 and cleaned a second time inside in order to limit impurities and microfiber as much as possible.

Our Food Grade Bags are recognizable by their reference. An "A" is present just after the mention of safety resistance such as :

BBS100X100X150-4S-1250-**A**-GR-GV-C.

## To keep in mind

- Resistance : 1250 kg
  - Volume : 2,022934999999999 m3 (2022,9349999999999 liters)
  - Filling Spout
  - Discharge Spout
  - 4 loops Crossed
  - **Printing : No Brand or Logo printed – Fully Neutral**
- 
- Reusable class SF 6:1
  - Anti-Leak Seams
  - Also Food contact compliant
